

## IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER

Este informe contiene información muy importante sobre su agua potable. Tradúzcalo o hable con alguien que lo entienda bien.

### MONITORING REQUIREMENTS NOT MET FOR Melody Woods Water

Our water system failed to monitor as required for drinking water standards during the past year and, therefore, was in violation of the regulations. Even though this failure was not an emergency, as our customers, you have a right to know what you should do, what happened, and what we did to correct this situation.

We are required to monitor your drinking water for specific contaminants on a regular basis. Results of regular monitoring are an indicator of whether or not our drinking water meets health standards. We missed our deadline for testing Well 05 every three years for inorganic chemicals and secondary drinking water standards. We were supposed to test in 2023 and instead tested in January, 2024. Therefore, we cannot be sure of the quality of our drinking water from Well 05 during the period of 5/2023 to 1/2024.

#### What should I do?

- There is nothing you need to do at this time.
- The table below lists the contaminant(s) we did not properly test for during the last year, how many samples we are required to take and how often, how many samples we took, when samples should have been taken, and the date on which follow-up samples were (or will be) taken.

Contaminant	Required Sampling Frequency	Number of Samples Taken	When All Samples Should Have Been Taken	When Samples Were or Will Be Taken
Inorganic chemicals	Every 3 years	3	5/2023	1/2024
secondary drinking water standards	Every 3 years	2	5/2023	1/2024

- If you have health issues concerning the consumption of this water, you may wish to consult your doctor.

## **What happened? What is being done?**

We take samples from Well #3 and Well #5 every 3 years to test for inorganic chemicals (for example, naturally occurring metals in the water) and secondary drinking water standards (for example turbidity, color, pH, nitrates). I got the schedules mixed up and didn't test Well #5 in 2023. When I realized this, I got the testing complete in January, 2024. That was beyond the deadline!

The fix is simple – a better organized Excel sheet with the testing dates on it.

We have since taken the required samples, as described in the last column of the table above. The samples showed we are meeting drinking water standards. If you want more details on the chemicals and standards tested, please see the 2022 Consumer Confidence Report for the 2020 results. The 2024 test results will be included in the 2023 Consumer Confidence Report, but if you would like a copy before then, please let me know.

For more information, please contact Lorenzo Dunn at (408) 502-6574 or [lorenzo@melodywoods.com](mailto:lorenzo@melodywoods.com)

Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools, and businesses). You can do this by posting this public notice in a public place or distributing copies by hand or mail.

## **Secondary Notification Requirements**

Upon receipt of notification from a person operating a public water system, the following notification must be given within 10 days [Health and Safety Code Section 116450(g)]:

- **SCHOOLS:** Must notify school employees, students, and parents (if the students are minors).
- **RESIDENTIAL RENTAL PROPERTY OWNERS OR MANAGERS** (including nursing homes and care facilities): Must notify tenants.
- **BUSINESS PROPERTY OWNERS, MANAGERS, OR OPERATORS:** Must notify employees of businesses located on the property.
